AUGUST ISSUE

ORIGINAL SOFTWARE NEWSLETTER

“Quality is not an act, it is a habit.”— Aristotle

TestBench 8.1

TestBench 8.1 is now available with exciting new functionality for data scrambling. There's no reason to be caught out by legislation or data security concerns about your test data any more. Now you have a complete tool kit to obfuscate test data in your IBM i test environments. Get the full details of what's available in this release [here](#).

New - 'How to' guides

Check out our new technical guides in the Product Support area. These guides show how to perform a variety of tasks in step by step detail. Titles already published include, '[Converting IE scripts to Chromium](#)', '[Hosted Jira](#)' and '[Loading Data into Qualify](#)', with more being added all the time. You can see them all [here](#).

Webinar: The road to test automation

[Register for the webinar](#)

We are running a series of no-nonsense half hour webinars taking place on the last Wednesday of each month. August's topic is "The road to automation". You can register to join [here](#). If you missed July's "*What killed regression testing*" you can watch the recording [here](#).

Staff News

Since our last update we've been joined by a number of new colleagues. Graham Walters has joined as QA team leader, George Fergadis is the latest addition to our senior developer team and John McKillop joins our US Sales team. I've also recently joined, I'm David Halliwell, and am pleased to be the new Head of Marketing.

Workshops

Thank you to Marc Croquette, IT Director at CertainTeed, who shared their successful approach to regression testing in a recent workshop. Feedback was extremely positive and we would like to make this a regular event. If you would like to share your story with fellow users, or have a topic you would enjoy debating in a workshop, then please [let us know](#).

Pegus Research

PEGUS is a true innovator in OTC (over the counter) switch research. They needed to find new software to support the simplification of the UAT process whilst

maintaining a high level of integrity. Implementing TestAssist and Qualify Enterprise has allowed Pegus to gain time and efficiency in every aspect of their UAT projects
